MODELLO PANORAMA SERIE SP

PANORAMA MODEL SP SERIES

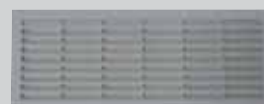

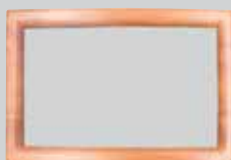

Il modello PANORAMA è disponibile nella variante VETRA-TA: il telaio in alluminio sostiene in questo caso sezioni in metacrilato o vetro, garantendo un elevato livello di luminosità. SILVELOX garantisce la possibilità di optare per soluzioni totalmente grigliate o vetrate, o ancora un mix tra i pannelli PANORAMA e i normali pannelli coibentati. Disponibile nei vari colori RAL o effetto legno.

The Panorama Model is available in the GLAZED version: the aluminium case supports methacrylate or glass sections, ensuring a high quality level of natural light. SILVELOX guarantees the possibility to opt for solutions with grids, glass or a combination of the two versions, as well as a combination of panorama and normal insulated panels.

Porta pedonale inserita nel manto completa di soglia ribassata, cerniera a scomparsa inserite nei profili di alluminio disponibili in tutte le tinte RAL ed effetto legno, completa di micro di sicurezza. Esiste la possibilità di adottare serrature a 3 e 5 punti di chiusura.

Pedestrian door built in robe full threshold lowered, concealed zipper inserted in the profiles aluminum available in all RAL colours and wood effect complete with safety micro switch. There is the possibility of adopt locks 3 and 5 locking points.

STRUTTURE PORTANTI IN ALLUMINIO *ALUMINUM STRUCTURES*

Per garantire un buon impatto estetico ottenendo al tempo stesso maggiore facilità nelle movimentazioni e nelle lavorazioni, SILVELOX propone tubolari per le spalle laterali e per l'architrave in alluminio con trattamento superficiale innovativo, che dona alla struttura lo stesso grado di finitura del manto.
To ensure a great aesthetic impact, but gaining ease in handling and mounting at the same time, SILVELOX offers aluminium tubular products for the sides and the lintel with an innovative and exclusive surface treatment that gives the structure the same accurate finish of sectional doors.
